2014	Title	Price/BMF Price	Date
	Applied Principles and Techniques of Depth Flow Filtration (DFF) and Tangential Flow Filtration (TFF) for BioPharm Downstream	1-day lecture 3-day lab 4-day full course	April 15-18 October 7-10
	Assay Development and Validation for Biomolecules		July 15-16
	Biopharmaceutical Analysis		July 29-31
	Cell Culture for MAb Production		June 10-12
	cGMP Biomanufacturing Operations ★		July 8-11
	Commercialization of New Biological Drugs		June 24 July 22
	GE Chromatography Column Packing		July 15-17
	Downstream Biopharmaceutical Processes: Fundamentals and Design		★ August 5-7 December 9-11
	Fermentation Engineering ★		August 12-14
	Fundamentals of Mammalian Cell Line Development		July 23-25
	Hands On Viral Vaccine Manufacture		May 19-23
	Introduction to DoE for Bioprocess Analysis and Optimization		October 8-10
	Introduction to Lean Six Sigma for Biomanufacturing: Making Operational Excellence Work		July 22-24
	Microbial Contamination Control in Bioprocessing Operations		December 9
	Molecular Perspectives in Downstream Processing		June 17-19
	Navigating the European Regulatory System		May 6-8
	Plant Molecular Pharming-Systems and Applications		July 29-31

Select the appropriate discount below if eligible.

- 20% discount for employees of BMF companies registering for one or more courses
- 20% discount for groups of five or more from one company registering for the same course.
- 50% discount for faculty/staff working in academic environments
- When registering for more than one course, 20% discount for second and subsequent courses. Discount applies only to courses of equal or lesser cost.

If paying by check, email melody_woodyard@ncsu.edu for exact amount due before mailing completed registration form and

If paying by purchase order, please note:

For starred (★) courses, enrollment will be processed ONLY upon receipt of payment. Due to high enrollment demand, a purchase order will not reserve a place in these courses.

If payment is not received at least five business days before the course start date, the registrant's place in the class may be released.
